INTRODUCTION

Welcome to the 2017 edition of the StreetGames Sources of Grants Guide for Doorstep Sport. We hope that this guide will inspire you to enhance your fundraising efforts.

The fundraising environment is still very challenging as organisations chase an ever decreasing pot of funds. Sustainability is a top priority. StreetGames offers support to enable our network of projects to become stronger organisations and to work towards long term financial sustainability.

This guide is packed with information about organisations that provide grants which prioritise one or more of the key issues of doorstep sport:

- Sport
- Physical Activity/Health
- Deprived areas and disadvantaged communities
- Young People

StreetGames is committed to helping our network maintain or increase the amount of funds available to deliver doorstep sport. There are many different forms of fundraising, and this guide just deals with grants that you may be able to apply for.

We encourage all organisations to use a variety of different fundraising methods to bring in more funds and avoid the risk of relying too much on one source of income. The StreetGames Guide to Fundraising will help you, it is available from our website www.streetgames.org

You should be able to find a number of grants in this guide for your organisation to apply for. We have identified 68 different grants that are relevant to doorstep sport. Not all of them are open at the moment, but please check the website contacts we have provided to check their latest status.

StreetGames has a 3 hour fundraising workshop as part of our Training Academy. You can order a workshop for your own organisation, or attend one of our general workshops. More details at: http://www.streetgames.org/bookings/

We hope that this guide will inspire you to enhance your fundraising efforts.

Health and Physical Activity: New funds are also available for sport and physical activity through your local Health and Well Being Board. For more information, visit https://www.gov.uk/government/publications/the-health-and-care-system-explained/the-health-and-care-system-explained or contact StreetGames Head of Physical Activity, Paul Jarvis, at paul.jarvis@streetgames.org

Community Foundations are a good local contact point for you about both national and local grants. For information about your local Community Foundation visit: http://ukcommunityfoundations.org/community_foundations/map/

Community Safety - StreetGames is increasing its relationships with Police and Crime Commissioners (PCC’s). Many if not all PCC’s have small grants and funds they give out to programmes that aim to tackle youth crime and anti-social behaviour. There are a number of things you can do to understand your local PCC priorities at the same time as developing a relationship with your local Policing service:

1. Introduce yourself and simply ask them! Follow the link to find out who your PCC is http://www.pccs.police.uk/find-your-pcc
2. Ring 101: which is the police non-emergency Police number and again: simply ask to speak to your local Police Community Support Officer, PCSO, for the area you’re working in. Sometimes funding is devolved into local areas and allocated in partnership with the local policing teams

MAX VALUE: £100,000

- On average, approximately 1,500 charities across the UK benefit each year from grants made by the Foundation ranging from the smallest community and volunteer projects through to large national organisations.

- The Foundation is only able to support UK registered charities unless the organisation has ‘exempt’ status - this is restricted to churches, hospitals, educational establishments and housing corporations.

- Despite the diversity of organisations and projects the Foundation funds, the common themes are charities that demonstrate quality and excellence with projects that have clear outcomes and benefits, good leadership and sensible business plans.

- It is unusual for the Foundation to consider making a grant to organisations who cannot demonstrate significant progress with fundraising. In general, the Trustees look for organisations to have raised the majority of funding through local or statutory sources.

- The Foundation is delighted to support a wide range of organisations; however - it does not fund individuals.

- Youth - We continue to support a broad range of organisations that are united in their ambition to give young people the best chances in life from scouts, youth clubs and sports clubs to mentoring schemes.

The Fund supports organisations which work with young people in a way that recognises and builds on their strengths and potential. Through this fund we want to promote a way of working where young people's voices, influence and ideas are central. It aims to enable those with innovative and influential ideas or outstanding practice to sustain and prepare to grow their impact.

- Organisations may be planning to grow their impact by:
  - Replicating a programme or service
  - Widening the reach of an idea or innovation
  - Spreading a technology or skill
  - Advancing policy or enhancing its implementation
  - Influencing attitudes

- The Fund will provide core funding to organisations within the youth sector and outside. This is a direct response to what we heard in our strategy consultation – that, in order to achieve greatest positive impact in the lives of young people, organisations need to achieve a balance of stability, continuity and flexibility.
